**Subject: Appreciation for Installation, Panel Termination, and Testing & Commissioning Work at Mount Elizabeth Hospital, Orchard**

Dear Zealcorps Team,

We would like to express our sincere appreciation to Zealcorps for the remarkable work being carried out in the ongoing installation, panel termination, and testing & commissioning project at Mount Elizabeth Hospital, Orchard.

Since the commencement of the project in 2023, your team has not only showcased exceptional technical expertise and professionalism but has also demonstrated outstanding management skills by effectively coordinating and supervising a workforce of more than 45 personnel. The ability to handle such a large team while ensuring high standards of quality and efficiency is truly commendable.

Working within the operational constraints of a hospital environment is no easy task, yet your team has consistently delivered with precision and reliability. Your proactive approach, dedication to meeting deadlines, and commitment to safety have played a vital role in the smooth progress of the project, which is on track for completion in December 2025.

We are grateful for the expertise and diligence you bring to this partnership, and we are confident that the remainder of the project will be executed with the same level of excellence.

Thank you for your exceptional efforts, and we look forward to the successful completion of this project.

Warm regards,

Chong Choon Meow  
Managing Director
